

Manuscript Title: A Weighted Fitting Approach for Diameter Distributions from Horizontal Point Sampling

Author: Gregory E. Paradis

Department of Forest Resources Management, University of British Columbia, Vancouver, Canada

Corresponding Author: Gregory E. Paradis

Email: gregory.paradis@ubc.ca

ORCID: 0000-0001-9618-8797

Keywords: horizontal point sampling; diameter distribution modelling; weighted nonlinear least squares; forest biometrics; reproducible research

Word Counts (Forest Science format)

Total number of words (including references): 1,862

Total number of words (excluding references): 1,765

Abstract number of words: 134

Number of words in Supplementary Information: 0

Submission Type: Brief Communication
